Supporting construction on brownfield sites

pageo.co.uk

Design, supply and installation experts in ground gas protection and contaminated land issues

#WeArePAGeo

Two companies, one solution

PAGeo, consisting of two separate but interlinked companies, has led the marketplace in the management of contaminated land and brownfield sites for over 25 years.

PAGeoContracting provides a comprehensive, nationwide service for gas protection and containment lining. It offers a design, supply and installation service for all your projects, installing a variety of membranes from leading worldwide manufacturers.

PAGeoConsulting is our international arm, offering consultancy globally.

Design. Supply. Install. PAGeo does it all.

Gas protection

PAGeo's gas protection solutions enable contractors, developers and their professional advisers to protect buildings from the effects of ground gasses.

- ✔ Full design and installation service
- ✔ Range of active and passive systems
- ✔ Provable

Containment

PAGeo specialises in the more complex geosynthetic lining applications where exacting standards are required, such as utility companies, contaminated land or high profile landscaping projects.

- ✔ Ornamental
- ✔ Chemical
- ✔ Water process engineering
- ✔ Permeable paving / swales
- ✔ Agriculture

Radon protection

PAGeo provides Radon protection solutions for housing and industrial buildings nationwide.

- ✔ Design and installation service
- ✔ Domestic housing, office and industrial premises
- ✔ Range of materials available from international manufacturers

Petrochemical

Secondary containment & pollution control membranes for the petrochemical sector.

- ✔ Full range of high performance solutions and materials

Complete project service

PAGeo offers a true turnkey service that includes:

- ✔ Best value PI backed design
- ✔ A full range of geosynthetic components to complement the project
- ✔ Fully qualified in-house installation teams

PAGeoContracting

PAGeoContracting offers a 'one stop shop' for design, supply and installation of a variety of membranes and systems for contaminated land solutions. Our dedicated design team are here to listen, to understand your project needs and to design the best and most cost effective solution for your project. You will have a designated project manager for your project from start to finish.

We source materials worldwide so can provide you with the best geosynthetic membrane for your specific job.

PAGeoContracting's installation technicians work with the widest range of membrane materials in the sector. They are experienced in all aspects of geomembrane and gas membrane installation as well as complicated detailing work, ensuring successful professional outcomes.

Accreditation

PAGeoContracting Ltd was the first specialist contractor in the country to ensure all our installation operatives are NVQ2 min qualified with our project supervisors holding NVQ3 and our trainees all working towards an NVQ2 qualification. Within the project management team we hold IOSH, SEATS and SSSTS qualifications. PAGeo was also the second company to be awarded British Geomembrane Association (BGA) accreditation in Gas membranes. PAGeo carries CHAS, Constructionline Gold, SafeContractor and PCA accreditations. The directors take safety management extremely seriously.

Nationwide network

PAGeoContracting provides nationwide services with hubs across the UK. Our aim is to ensure all projects can run as efficiently as possible, whilst also reducing logistical costs and our carbon footprint.

PAGeoConsulting

PAGeoConsulting is the international arm of PAGeo and offers worldwide consultancy in hazardous ground gas management and geosynthetic barrier solutions. It also offers design and 'route to market' services connecting manufacturers and suppliers with world markets. We have a leading expert with over 40 years in the geosynthetics sector and many of our overseas clients use PAGeoConsulting Ltd to help with specific projects.

PAGeoConsulting is currently working with the Australasian gas protection market and assisting with the emerging brownfield development sector whilst also working in China developing vocational training and design support with specific groups within the contaminated land sector.

PAGeoConsulting

Working with the industry

PAG is proud to be associated with the industry's leading professional organisations. In many cases the company is an active participant in forming policy and steering technical developments.
