Site  
investigation

TBA

Material

Installation

Validation

**GUEST SPEAKERS** covering the legal aspects of this type of construction and discussions regarding the national regulation regime.

(Speakers TBA)

PAGEO and its partners are experts in the management of ground gas risk in construction. Join us at **Ground Gas: Scotland** to hear the latest updates and guidance from leading experts in all aspects of ground gas protection. Engage with a series of best practice talks from the whole protection cycle, from site

investigation, material supply, installation, and verification. You will also have the opportunity to network with colleagues across the sector to discuss challenges you have faced and to look at solutions through partnership working.

GUEST  
SPEAKERS

## Who Should Attend?

Local authorities, engineers, architects, and contractors promoting land redevelopment and regeneration will find the conference invaluable.
